

Instructions **C7477 Insulation Liner Clips**

The Liner Clips are used to attach lining materials -- such as Bubble Insulation, Poly, or Shade -- to the inside of most aluminum greenhouses.

METHOD:

1. Slip the Washer onto the stem of the Liner Clip.
2. Push the Liner Clip through the lining material into the glazing bar channel.
3. Twist clockwise until it is firmly held in position. Easily removed.

**Also known as Alliplug Greenhouse Clips (imported from England)*
